

Great Violinists and Pianists (Classic Reprint)

Library ML 335 Fl of 6E OT E. The title of this little book may be misleading to some of its readers, in its failure to include sketches of many eminent artists well worthy to be classed under such a head. There has been no attempt to cover the immense field of executive music, but only to call attention to the lives of those musical celebrities who are universally recognized as occupying the most exalted places in the arts of violin and pianoforte playing; who stand forth as landmarks in the history of music. To do more than this, except in a merely encyclopedic fashion, within the allotted space, would have been impossible. The same necessity of limits has also compelled the writer to exclude consideration of the careers of noted living performers; as it was thought best that discrimination should be in favor of those great artists whose careers have been completely rounded and finished.
